SYDNEY BLINDS & SCREENS®

WHY CHOOSE SYDNEY BLINDS & SCREENS?

Experience

We've been in business for more than 35 years and during that time we've earned a reputation for excellence and professionalism. Our expert sales consultants and installers are highly trained, and their focus is always to customise a solution that meets your needs, and to make your experience seamless, professional and hassle-free.

Made to measure

Attention to detail is the key, which is why all our products are made to measure. This starts with our sales people taking meticulous measurements in your house. Then our factory manufactures to those exact measurements and finally our professional installers fit your products at a time and date that's perfect for you.

Free measure & quote

To organise a free measure and quote, just fill out our Free In Home Consultation form at www.sydneyblinds.com.au, or give us a call to book a time and date that works for you. Our sales consultants will then visit you with a wide range of samples and swatches, measure up and help you choose the best materials for your home.

Manufactured locally

We're committed to supplying quality local made products along with Australian – made fabrics. In addition to supporting local suppliers and manufacturers, it also enables us to deliver only the best to our customers.

Child safety

We're parents ourselves, so we know how important it is to keep your children safe. That's why all our blinds come with a choice of child-safe operating systems that are designed to ensure there are no choking or strangling hazards. Of course, they still look beautiful and operate flawlessly.

Environment

We believe responsible environment management is non-negotiable. Wherever possible, we use sustainably sourced timber from managed forest.

Simple & Stylish

Roller blinds give your home a clean, modern appearance. At the same time, they're one of the most practical solutions for managing light, heat, cold and privacy. They are especially useful if you don't have much space. Unlike curtains, they take up almost no room (either up or down), so they're perfect for your busy kitchen or bathroom.

- Practical solution for managing light, heat, cold and privacy
- Fabrics available for all companion products
- Easy to clean: most fabrics are soil- and stain-resistant, and can simply be wiped clean
- Options available for wet areas like bathrooms and kitchens
- Flame retardant, blackout, dim-out and glare reduction fabrics available

Fabric Opacity

<p>SUNSCREEN</p> 	<p>Control heat and light without losing your view, and increase night-time privacy by layering with blackout fabrics.</p>
--	--

<p>TRANSLUCENT</p> 	<p>Use translucent fabrics to filter out the sunlight whilst maintaining day and night time privacy. Translucent fabrics do not allow a view through but bring textures and patterns to light.</p>
--	--

<p>BLOCKOUT</p> 	<p>When privacy is your goal, blackout fabrics are the answer. Night or day, they'll keep prying eyes out, and they'll also help you insulate your room.</p>
---	--

ROLLER BLINDS

DOUBLE ROLLER BLINDS

Get the best of both worlds, by combining a blackout blind on the outside with a sheer or translucent blind on the inside. You can pull the blackout blind down whenever you need maximum privacy and UV protection, and leave it up when you don't. The sheer/translucent blind gives you soft, diffused light during the day, and privacy at night, without impeding the cool summer breeze.

Motorised blinds add a level of ease and convenience with the touch of a single button. Your entire home can be synced to a single remote control to open and close your interior blinds. There are other benefits that come with having automatic blinds beyond just the comfort.

Why should you consider motorised blinds?

Convenience : With the simple touch of a button, you can move your blind to a position you like. You can also add sensors and timers so your products work for you even when you're not at home.

Energy efficiency : Reduce your energy usage by controlling the amount of heat and light entering your home.

Longer lifespan: Manually operated blinds often end up being damaged by excessive force and improper use. Somfy's smooth and controlled operation ensures both maximum functionality and a longer product lifespan.

Safety : With Somfy automated blinds , the cords and chains are completely removed, providing a safer environment for your children.

Quiet and discreet: At office or at home, silence is a key factor for well being. Sonesse® range from Somfy offers an added value of acoustic performance to quality and compatibility.

VERI SHADES

The clever curtain

Easy to operate

The twist wand operation is quick, simple and safe.

Soft and silent

With no cords, weights or connecting chains, Veri Shades are silent, even in a breeze.

Veri Shades® are the new revolutionary window furnishings range that combines the sophisticated elegance, softness and style of curtains with the versatility of blinds.

The unique patented design is made from a soft, yet durable fabric that hangs luxuriously like curtains, while the supple folds operate like blinds to provide privacy, superior light filtering and airflow control.

SIX NEUTRAL COLOURS TO SUIT ANY STYLE

Veri Shades are available in a range of gorgeous tones chosen by our interior design specialists.

Functionality

The unique patented design allows the ability to have translucent or opaque fabric at the turn of a wand.

PANEL BLINDS

©Uniline Australia 2016

Keep it practical

Designed as a modern alternative to vertical blinds, the panel glide blind is an innovative shading solution for larger windows and patio doors. Choose your preferred panel size - from 400mm right up to 1,000mm, and they can be free-floating or connected, and can stack left or right when opening (or both).

- Can be used as a room divider
- One-way draw or centre-open
- 3, 4 and 5 channel track options, and up to 9 individual panels
- Velcro allows for ease of fabric attachment & detachment
- Change fabric easily if your room decor changes

©Four Families (Basford Brands) 2016

ROMAN BLINDS

©Four Families (Basford Brands) 2016

Keep it casual

The casual simplicity of our Roman blinds allows them to fit into any setting, making them one of our most popular products. More detailed than a roller blind, they gather softly as the blind is opened. Available in light-filtering or blockout fabrics with different batten applications, these shades can capture and complement any intended style.

- Ideal solution for a genuinely cosy, layered look
- Light and easy to operate
- Customise with chain control for larger blinds

LUMEN BLINDS

FULLY CLOSED

FULLY OPEN

HALF OPEN

Be in control

Cleverly designed to operate much like a roller blind, Lumens are simple to use, and because their fabric combines translucent and opaque horizontal strips, layered at the window, you gain better control over the balance of light and privacy.

Each blind comes with a control cord that moves individual translucent and opaque strips past each other. The more translucent strips you leave exposed, the more filtered light you let in. It's a revolutionary design that

makes Lumen blinds perfect for letting in the light you want without compromising on privacy.

- Contemporary design provides a striking look
- Stunning alternative to the classic venetian or roller blind
- Combines opaque and translucent fabrics
- Available in a beautiful range of fashion shades

GALAXY BLINDS

Effortlessly beautiful

GALAXY BLINDS

Galaxy blinds are comprised of a distinctive honeycomb design that capture pockets of air. These pockets of air reduce noise and also provide insulation, helping you keep your home warm in winter and cool in summer

- Single cell application in a huge variety of colours
- Top-down and bottom-up options available
- Corded
- Cordless

GALAXY EXPRESS

Our incredibly efficient Galaxy Express Blinds not only look great but also help keep energy costs down. Their unique structure creates a thermal barrier between the room and window to provide additional insulation.

Galaxy Express blinds are available in exciting new season colours. Expect “**Express**” delivery of these stylish pleated blinds.

- Corded
- Cordless
- Bottom Up only
- Single cell application

VENETIAN BLINDS

Simple and sleek

ALUMINIUM VENETIAN

Aluminium Venetian blinds are still one of our most popular window furnishing styles and with good reason. They offer great flexibility and functionality, and make it easy for you to filter incoming light, or block it out completely.

Durable, efficient and economical, aluminium venetian blinds are also decorative. You can choose from a wide range of colours, to suit any application. And because you can simply wipe the aluminium slats clean, they're ideal for your kitchen and bathroom.

TIMBER VENETIAN

Add warmth and more luxurious feel to your home with our Nyata Timber Venetian Blinds. A Classic style made from real timber which suits a variety of home environments. Choose from a gorgeous selection of rich wood tones and painted finishes -from Sirius White to Chesnut and Mocha, all designed to help you create a wonderfully warm and welcoming scheme.

TIMBERSTYLE VENETIAN

Timberstyle Venetians give you the beautiful organic appearance of timber, as well as the low-maintenance convenience of man-made materials. Manufactured using polystyrene, these elegant blinds are water-resistant, durable and easy to clean, making them an ideal solution for kitchens and bathrooms.

MOCKWOOD VENETIAN

A classic and beautiful adornment for any window, our Mockwood blinds complement most decors and are a practical and economical alternative to actual timber. They boast a hard-wearing, water-resistant style, that's perfect for kitchens and bathrooms. You can choose from a range of on-trend coloured slats in gorgeous white and mineral tones. Available only in a smooth finish.

SHUTTERS

Our shutters are designed and manufactured to be durable and sustainable, wherever you use them. Choose from a range of materials from PVC to painted and stained finishes that will compliment your colour palette and decor.

Make it grand

SUNSET WOOD SHUTTERS

Timeless and sophisticated, our Sunset hard wood Timber Shutters are completely customisable to perfectly enhance each individual space within your home.

Available with our “easy tilt” (concealed tilter) option for a more streamlined appearance, this application offers a tighter closure and wider view whilst creating a stunning feature that will radiate charm for years to come.

Whether you are looking for aesthetic window furnishings, or looking to add value to your home, you will be spoilt for choice with the colour range of paints and stains, shapes and applications this Shutter offers.

SUNSET ALUMINIUM SHUTTERS

Sunset Aluminium Shutters are manufactured to the highest quality of finishes. Designed as a modern, functional plantation Shutter, they are aesthetically appealing for exterior living spaces.

Durable and maintenance free, they have the ability to withstand the tough environmental conditions whilst adding style to your home, office or commercial environment.

Suitable for a range of installation types including patios, verandas, alfrescos and balconies

SUNSET PVC SHUTTERS

PVC Shutters have significantly increased in popularity over the last few years. Sydney Blinds and Screens SUNSET PVC Shutters are competitively priced, durable and versatile. With an Aluminium core for added strength, our PVC Shutters are perfect for all applications especially indoor wet areas.

Due to the construction of the components, our PVC Shutters have a high factor of thermal resistance. Extremely durable and with versatile installation options, you'll have peace of mind and comfort enjoying the privacy and light control that shutters offer, whilst being confident in the quality of our product.

Create the ultimate deck

©Somfy 2016

FOLDING ARM AWNINGS

Folding Arm Awnings are the perfect solution for providing continuous shade and protection from the sun's harmful rays. These retractable systems are ideal for large areas such as deck and outdoor entertaining areas.

These awnings are available as Standard (open style), semi or full cassette. The semi and full cassettes conceal the mechanism inside the headbox when retracted. Standard operation is by crank (gear operation) or the awning can be motorised and linked with optional sun and wind sensors.

©Somfy 2016

MOTORISED AWNINGS

No more ugly, hard-to-operate handles, especially in 35°! Electric awnings can be operated easily with a remote control, tablet or smartphone.

Our range of motorised awnings are the perfect addition to any home. With the single press of a button, you can add comfort and convenience to your outdoor entertaining.

For more comfort, consider adding sensors. The sun sensor lowers the awning automatically to keep your living room cool. And, for more peace of mind when you're away, the wind sensor will automatically retract your awning when the wind picks up to protect your system.

©Hunter Douglas Australia 2016

Closeup of Wire Guide Awnings

STRAIGHT DROP AWNINGS

Straight Drop awnings drop down at a right angle to the ground, providing shade for outdoor areas including windows, decks and patios. These awnings are very versatile and come in a range of different fabrics including canvas and acrylic. We supply straight drop blinds in a number of styles:

CORD AND REEL: Available in all fabric types, these awnings are very popular, especially for verandahs and pergolas.

GEARBOX OPERATED: A good value for money option, gearbox operated blinds work with a crank handle that is hooked into the gearbox to wind the awning up and down. Because they have no cords they enjoy a clean finish while still being as easy to operate as a roller blind.

Alpha side retention system ©Hunter Douglas Australia 2016

CHANNEL GUIDE MULTI STOP: Their spring tension system makes these Awnings easy to operate by hand and with no gaps or messy cords you can achieve a wonderfully clean look. The bottom bar is spring loaded and locks into position at any point when it is turned and released.

WIRE GUIDE: Also known as stainless steel wire guide awnings, the wire guide lets the awnings move up and down easily and with a very close fit. These are very popular due to their ease of use, versatility and sleek modern appearance. Cables are 316 marine grade, making them ideal for coastal locations. These Awnings are usually crank operated but they can be motorised for extra convenience.

Entertaining is effortless outdoors when protected by the **ZIPSCREEN**

- Contemporary square head-box blends seamlessly into existing structures.
- Child Safe - No cords or chains.
- Easy to operate - 3 styles available - Manual (Gearbox or Spring Loaded) or Motorised.
- Ultra-lock allows closing, locking and tensioning in one easy action.
- Patented Z-LOCK technology to ensure that the fabric holds taut.
- Minimalist, slimline, design means that they can be installed in buildings and homes.
- Unique self-aligning side channels makes installation easy being able to correct out of square areas.
- Sun/UV protection, Privacy, Wind and Insect Resistant.

CONVERTIBLE AWNINGS

This is the most popular type of Awning due to its versatility. Convertible awnings are suitable for both ground floor and upper level applications and can be operated externally with rope, tape or a winch or internally with tape or a winch.

Optional hoods are available in a selection of colours to

protect the fabric on the roller when retracted. Florentine Awnings are based on the convertible awning and have guide rails connected flush to the wall. Ideal for doorways and balconies, the pivot arms are designed to allow more clearance under the awning.

AUTOMATIC AWNINGS

Automatic awnings are hand operated with self-locking arms that slide along vertical rails. Great for all exterior uses, especially covering windows and doors, these awnings can include a headbox to protect the roller mechanism and the fabric from harsh weather. Automatic awnings come in a number of different fabrics including sunscreen, canvas and acrylic.

PIVOT ARM AWNINGS

System 2000 Pivot Arm Awnings are ideal for shading a huge variety of windows. Pivot Arm Awnings will shade the window yet allow the air to flow around it, making them ideal for those hard to reach windows. They can be operated internally or externally via cord lock, winch or motor.

Among our most popular pivot arm awnings are the Robusta Pivot Arm Awnings. These are designed for high wind areas or larger windows and can be operated using a motor or a crank, both internally and externally.

DIAMOND GRILLE DOOR

Finding the right balance between appearance and performance is not always easy. At Sydney Blinds and Screens, we offer a wide range of designs, our proven quality ensures security requirements for any home can be met.

All products are custom made to enhance the design of your home. Our Diamond Safety Grilles are manufactured using special tempered Aluminium framing and meet the requirements of the Australian Security Door Standard AS5039 for greater strength and increased peace of mind.

Choose from a small diamond design, our 7mm diamond design or a decorative pattern design, all offering the same level of security. Virtually maintenance free, both grilles and frames come in a range of styles and modern colours or can be powder-coated to suit any décor.

A117 SMALL DIAMOND

STANDARD 7MM DIAMOND

A227 DECORATIVE DIAMOND

COLONIAL CASTING DOORS

For a more traditional look, choose from one of many patterned barrier doors. Ideal for complementing certain styles found in traditional homes, or to add an additional level of safety to your home, our colonial doors can be powder-coated to match any exterior. You can also add side lites to create a uniform look.

Mesh options include: Pet Mesh, DVA mesh and Stainless Steel.

DOGGY DOORS

Our doggy doors fit seamlessly into any of our custom made screen doors and come in three different sizes so your four legged family member can come and go with perfect ease.

- Lockable both sides
- Available in 3 different sizes (Small, medium, large) and 6 colours (Black, White, Primrose, Stone-beige , bronze and brown)
- Magnetic strips at the bottom for it to swing smoothly
- Clear plastic – easy to see through
- Can be installed anywhere in the door

VISTA SAFETY DOOR

The Vista Door offers affordability and quality at its best. Manufactured using 0.7mm stainless steel mesh, with a pop riveted fixing system, it provides peace of mind and keeps the bugs out, while still letting the cool summer breeze in.

With a huge range of colours to choose from and assorted applications, choosing a safety door couldn't be easier. Plus, you can get matching safety grilles for your windows, so you have a consistent finish around your entire home.

- 0.7mm 304 Stainless steel mesh
- Strong aluminium frame available in more than 20 standard power coat colours
- Single lock
- Hinged, sliding doors and grilles available

OPTIONAL EXTRAS:

- Triple lock
- Doggy door - available in small, medium & large

SECURITY DOORS

ALSAFE SECURITY MESH (ASM) DOOR

Alsafe Security Mesh (ASM) door combines sophisticated technology, disciplined manufacturing and unmatched quality with an attractive design, giving you the ultimate security, style and peace of mind.

Constructed with a heavyweight extruded aluminium frame, high-strength marine grade 316 stainless steel, and our unique 3-way locking system, it ensures maximum protection of your property and family.

And naturally, because security is our chief concern, the ASM door has been rigorously tested to ensure it meets all relevant Australian and Industry Standards (AS5039), and it has passed the following tests:

- ✓ Dynamic Impact Test
- ✓ Lock and Hinge Lever Test
- ✓ Knife Shear Test

FEATURES:

- Triple locking mechanism
- 0.8mm marine grade 316 stainless steel mesh
- Mesh count of 11 x 11 strands per inch (25mm)
- Heavyweight extruded aluminium frame
- Heavy duty corner stakes
- Wedge type fixing system
- Available in our full range of 20 standard powder coat colours
- Hinged and sliding doors and grilles

INVISIGARD

INVISI-GARD Security Screens offer an unparalleled combination of security and clarity of vision. Constructed from aluminium and marine grade 316 stainless steel, they also use a unique, patented INVISI-GARD Pressure Retention and Isolation Method, which ensures the door's mesh will defy even the most determined attack, whether it's from an intruder or corrosion!

INVISI-GARD Stainless Steel Security products don't require screws or any other form of mechanical fixing to secure the mesh into the perimeter frame. As a result, the potential for corrosion through dissimilar metal contact is minimised.

- 10x the strength of the Australian Standard in terms of absorbed energy
- Heavy duty extruded aluminium perimeter frame for extra strength
- The 316 marine grade stainless steel mesh can withstand harsh environments such as coastal or industrial areas
- Clean look with no unsightly screws or other fixings
- Hinged doors fitted with three-point locks and hinges for added security

TESTED AND APPROVED

Tested and approved in accordance with Australian Standards, INVISI-GARD delivers confidence in security. INVISI-GARD Stainless Steel Screens have a wide range of products suitable for the following residential and commercial applications:

- | | |
|---------------------------|----------------------------|
| ✓ Hinged Doors | ✓ Emergency Escape Systems |
| ✓ Patio Enclosures | ✓ Pool Fencing |
| ✓ Sliding Doors & windows | ✓ Security Screens |
